Metro

Nation's Leader in Innovation

- Metro has been planning, designing, building, operating & expanding one of the largest transportation systems in the nation
- Recognized as America's Best Transportation System

Framework for Sustainability Implementation

Metro Greener Fleets

- Nation's 1st and Largest Compressed Natural Gas (CNG) Fleet-2,500 and growing
- 97% cleaner than retired diesel buses (Low Carbon fuel)
- All buses have bike racks for multi-mobility

Metro Greener Buildings & Developments

- LEED Silver minimum on all new Metro projects & Transit-Oriented Development
- Uses 33% less Electricity & 50% less Water saving over \$75,000 annually
- Over 20 Transit-Oriented Developments providing greater access to transit, walking & bicycling options.

Metro Greener Power

- Largest solar installation (850 KW) in the Transit Industry
- Metro saves more than \$400,000 on electricity costs
- More than 1 Megawatt under construction

Metro Greener Commutes

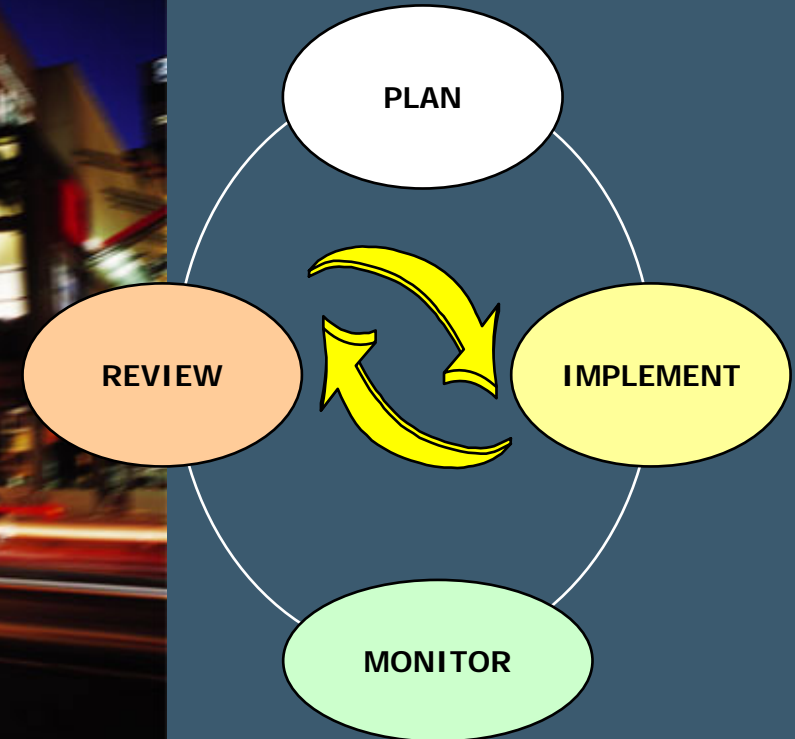

- Rideshare partnerships with employers, businesses & groups
- Increase transit, carpooling, vanpooling, walking, biking, car-sharing & telecommuting among employees & students.

Metro Greener Transportation Corridors

- Integrated Transitway, Bikeway & Landscaped Pathway
- Recycled materials, 1000's of trees & low water plants
- 1/3 of new riders former commuters along US-101
- Exposition Transitway to offer similar amenities

Greener Operations-Sustainability Management System

- Pilot SMS to coordinate Metro's best management practices under one system
- Continuous improvement & positive impact on the environment, employees & customers.
