

# I-5 HOV from SR-134 to SR-118

## Project Description

PROJECT	DESCRIPTION
I-5 HOV from SR-118 to SR-170	This project consists of HOV lanes in both directions as well as a direct HOV to HOV connector between the existing SR-170 HOV lanes and the I-5 HOV lanes.
I-5 HOV from Buena Vista St to SR-170	The project proposes to construct one HOV in each direction from SR-170 to just north of Buena Vista St in the City of Burbank. It consists of widening the freeway mostly in the median to construct one HOV lane in each direction.
I-5 HOV/Empire Av Interchange Modification & Burbank Bl Reconstruction and Interchange Modification	This project proposes to construct one HOV lane in each direction from south of Empire Av to just north of Buena Vista St in the City of Burbank. It also proposes the realignment and elevation of the adjacent railroad tracks to make way for the freeway widening and to provide a grade separation at Buena Vista St (underpass).
I-5 HOV from Magnolia Bl to SR-134	The project also consists of the reconstruction of Burbank Bl over a short widened and realigned segment of I-5 to include one HOV lane in each direction from south of Burbank Bl to just south of Empire Av in the City of Burbank and the modification of the Burbank on and off ramp into a tight diamond interchange.  This project consists of constructing one HOV lane in each direction along I-5 from Magnolia Bl to SR-134.

continued on next page

This project is comprised of four separate segments which will widen the I-5 for the construction of one HOV lane in each direction from SR-134 to SR-118, a total of approximately 12 miles. The I-5/SR-170 mixed flow connector will be reconstructed and a new route I-5/SR-170 HOV to HOV connector will be constructed.

### Project Funding

Total project cost is estimated at \$950,595 million with federal sources providing 8%, state sources providing 43% and local sources providing 49%. Measure R provides \$271.5 million for I-5 from SR-134 to SR-170.

Construction Schedule		Status	Funding
TO BEGIN	TO END	DATE AWARD EXPECTED	PER PROJECT
August 2010	June 2015	Awarded May 2010	\$250,926 million
January 2011	December 2014	Awarded October 2010	\$107,780 million
September 2012	August 2016	July 2012	\$439,265 million
March 2011	December 2014	Awarded December 2010	\$152,624 million
