

Las Virgenes/Malibu Operational Improvements

A variety of Las Virgenes/Malibu projects will provide operational improvements in the cities of Agoura Hills, Calabasas, Hidden Hills, Malibu and Westlake Village. In numerous locations throughout the Las Virgenes/Malibu subregion, these coordinated operational improvements will improve traffic flow and mobility and enhance pedestrian and bicycle safety and quality of life.

Project Description

Examples of projects include intersection, ramp and bridge widenings, signal synchronization, park-and-ride lot construction, bike paths, as well as other operational improvements that would benefit the subregion.

Project Status

The initial project list was approved by the Metro Board at its March 2010 meeting. Some projects have completed design and are in construction. Caltrans and Metro are working with the subregion to develop additional projects.

Project Schedule

Varied

Project Funding

Measure R provides \$175 million for the projects, which will be used to leverage additional funds.
