

**5.2.4 Segment Option 4S: Century City (Constellation) Station to Wilshire/UCLA On-Street Station via Central Route**

Segment Option 4S follows the same alignment as Segment Option 4R from the Century City Constellation Station until it splits off at Wilshire Boulevard to turn west and continue under Wilshire Boulevard to the Westwood/UCLA On-Street Station. At approximately Selby and Ashton Avenues, Segment Option 4S turns more westerly than Segment Option 4R (which turns more northwesterly to cross under Wilshire Boulevard and then Lindbrook Drive), turning under Malcolm Avenue, and then under the center of Wilshire Boulevard to the Westwood/UCLA on street station centered at Gayley Avenue. Segment Option 4S is applicable to Alternatives 1 through 5 only (Table 2-1).

To construct Segment Option 4S, 353 permanent underground easements for tunneling are anticipated (Table 5-23 and Figure 5-8). A summary of the types of land uses affected by these permanent underground easements is presented in Table 5-24. These 353 permanent underground easements are anticipated to affect 449 residences, including 82 single-family residences, seven condominium buildings with a total of 243 condominium units and twenty multi-family apartment buildings with a total of 124 residential units (Table 5-25).

Figure 5-8: Segment Option 4S: Permanent Underground Easements

5.3 West Alignment Options (Segment Options 4N, 4O, 4T, and 4U)

Segment Options 4N, 4O, 4T, and 4U have underground alignments that travel between either the Century City Station at Santa Monica Boulevard (Segment Options 4N and 4O) or at Constellation Boulevard (Segment Options 4T and 4U) and Wilshire/UCLA Station via the West Route. Segment Options 4N, 4O, 4T, and 4U are applicable to Alternatives 1 through 5 only (Table 2-1). Segment Options 4N, 4O, 4T, and 4U share the same parcels at the respective terminus station areas that have been described under other alternatives or options. Specifically, at the Westwood terminus area, Segment Options 4N and 4T have the same Wilshire/UCLA Off-Street station area parcels as Alternative 1 (base), and Segment Options 4O and 4U have the same station area parcels as Option 5. Therefore, none of the parcels at the Century City Station or the Wilshire/UCLA Station will be discussed in this section.

5.3.1 Segment Option 4N: Century City (Santa Monica) Station to Wilshire/UCLA Off-Street Station via West Route

Segment Option 4N begins from the Century City Station on Santa Monica Boulevard and travels westerly, beyond the turning points for the options described above, turning north at Glendon Avenue, centered under Westwood Boulevard, turning northeast at Holman Avenue and angling to the northeast under Glendon, Ohio, and Wilkins Avenue to Malcolm and Rochester Avenues. At this juncture, the alignment turns northward and travels under Wellworth and Ashton Avenues, under Wilshire Boulevard, curving westerly to travel under Lindbrook Drive, and terminates under UCLA Lot 36. Segment Option 4N is applicable to Alternatives 1 through 5 only (Table 2-1).

To construct Segment Option 4N, 153 permanent underground easements for tunneling are anticipated (Table 5-26 and Figure 5-9). A summary of the types of land uses affected by these permanent underground easements is presented in Table 5-27. These 153 permanent underground easements are anticipated to affect 379 residences, including 26 single-family residences, two condominium buildings with a total of 102 condominium units, and two multi-family apartment buildings with a total of 251 residential units (Table 5-28).
