

**5.3.2 Segment Option 4O: Century City (Santa Monica) Station to Wilshire/UCLA On-Street Station via West Route**

Segment Option 4O follows a similar route to that of Segment Option 4N except that rather than continuing almost due north to cross under Wilshire Boulevard and then under Lindbrook Drive, Segment Option 4O continues from the northeast diagonal a bit more northerly to the intersection of Malcolm and Wellworth Avenues, and then begins a sharper turn to the northwest and then west to turn under the center of Wilshire Boulevard at Glendon Avenue, and then continues under Wilshire Boulevard to the Westwood/UCLA On-Street Station centered on Gayley Avenue. Segment Option 4O is applicable to Alternatives 1 through 5 only (Table 2-1).

To construct Segment Option 4O, 144 permanent underground easements for tunneling are anticipated (Table 5-29 and Figure 5-10). A summary of the types of land uses affected by these permanent underground easements is presented in Table 5-30. These 144 permanent underground easements are anticipated to affect 197 residences, including 27 single-family residences, two condominium buildings with a total of 95 condominium units and four multi-family apartment buildings with a total of 75 residential units (Table 5-31).

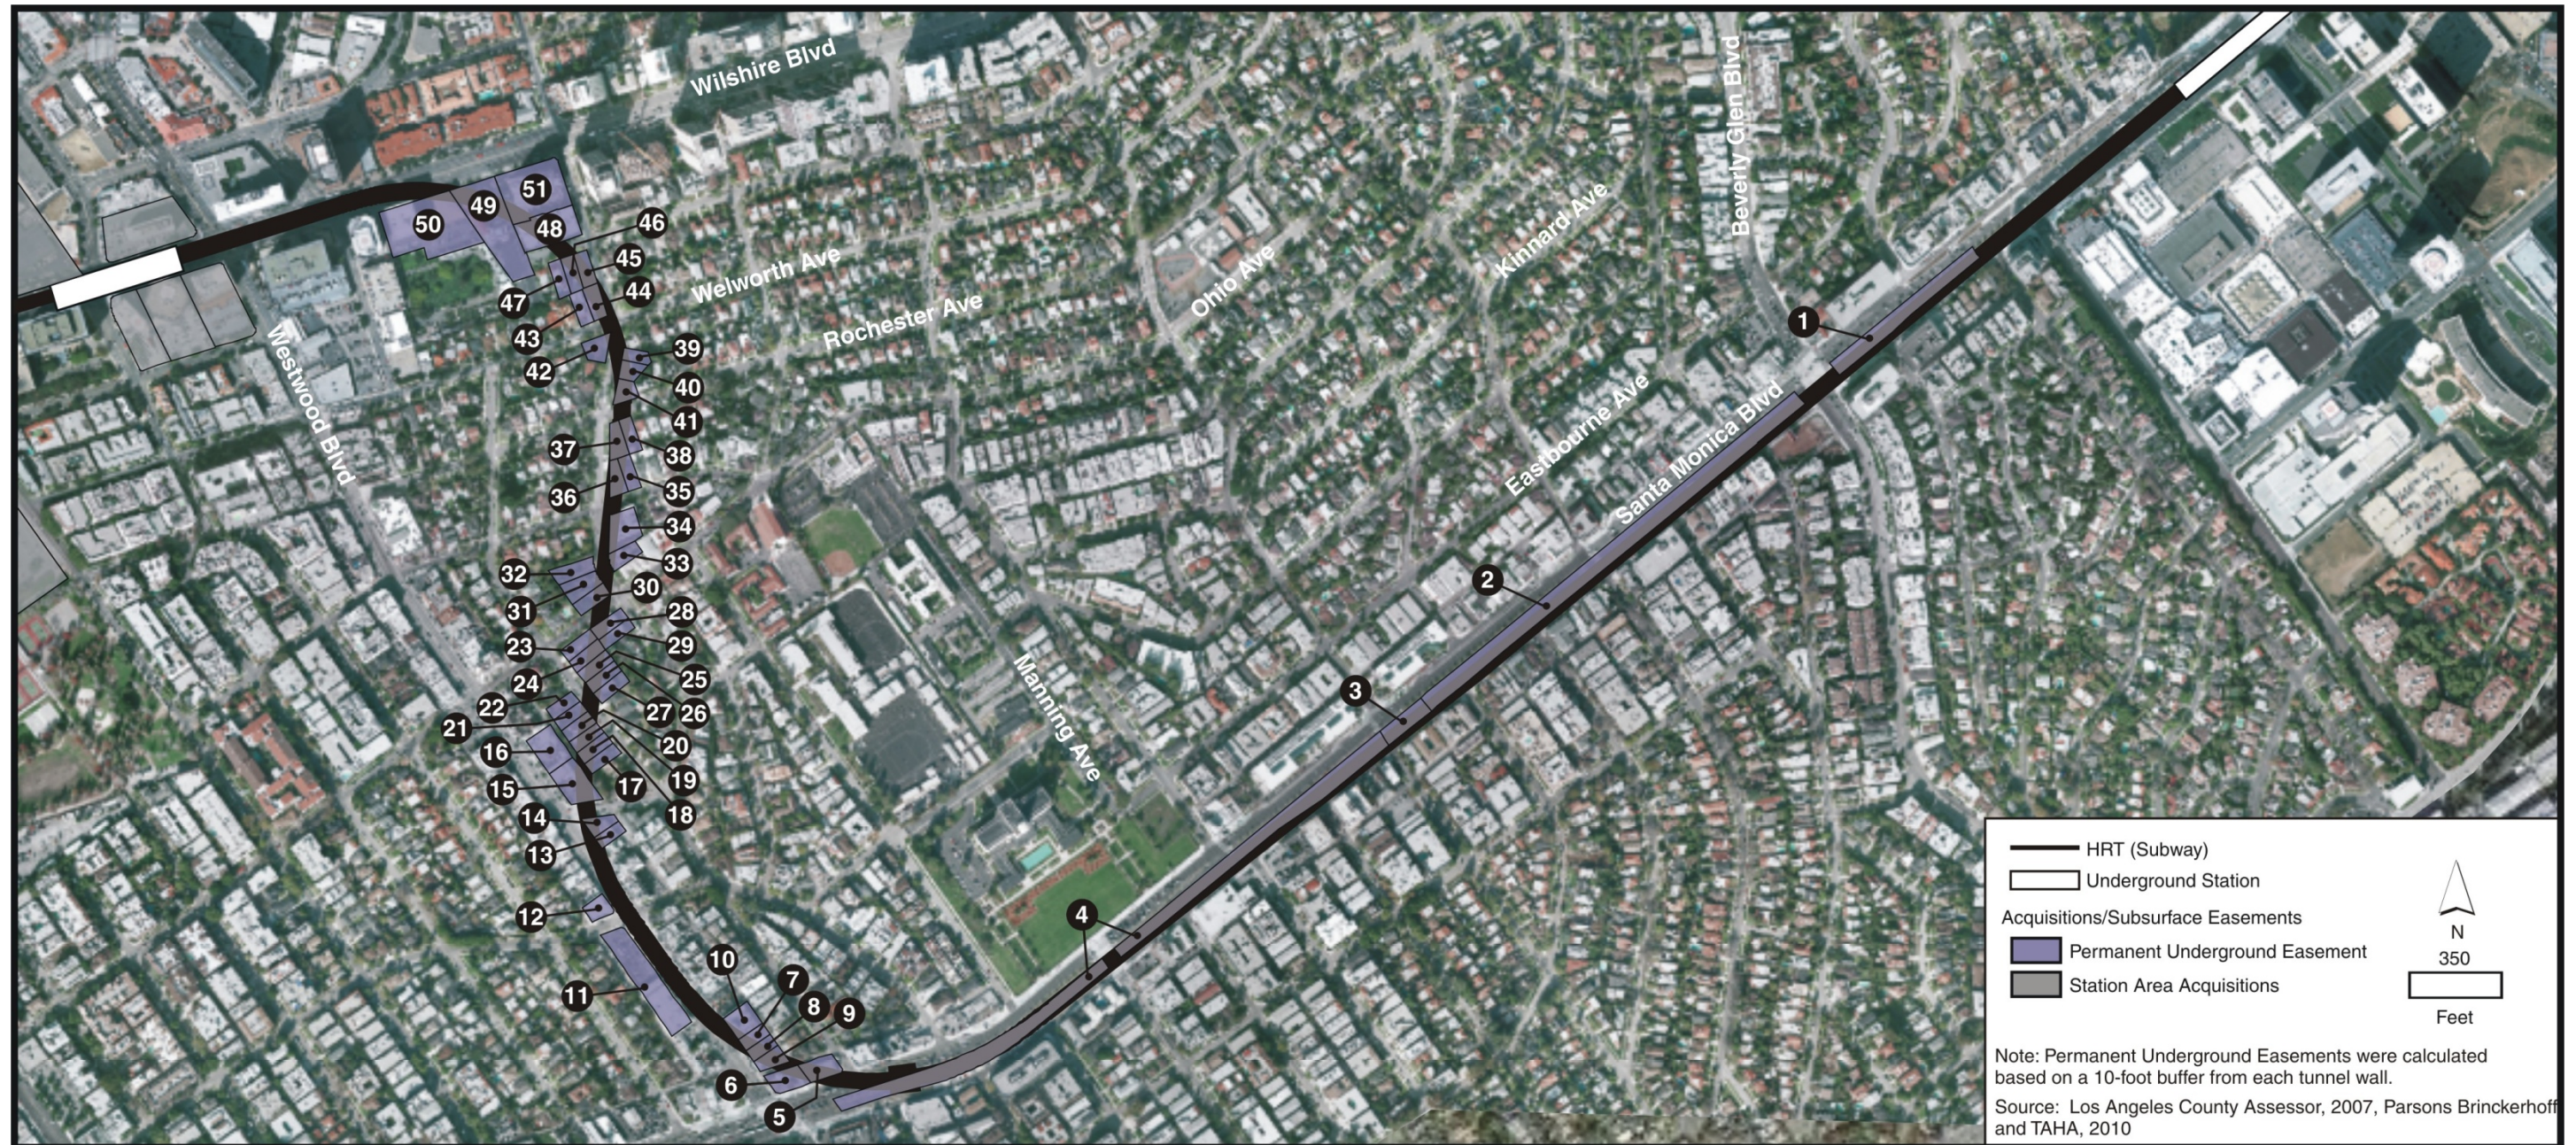

Figure 5-10: Segment Option 4O: Permanent Underground Easements

**5.3.3****Segment Option 4T: Century City (Constellation) Station to Wilshire/UCLA Off-Street Station via West Route**

Segment Option 4T follows a combination of routes that are similar to Segment Options 4N and 4R, described above (Segment Option 4R where it leaves the same Century City Station and travels west under the properties west of the Westfield Mall, and Segment Option 4N where it travels along the West Route). Specifically, this option leaves the Century City Station on Constellation Boulevard, travels farther west on Constellation Boulevard, curving slightly less than Segment Option 4R, to travel under Century Park West, Dunkirk, La Grange, Comstock, and Benecia Avenues, then Beverly Glen Boulevard, and Pandora Avenue to Holmby Avenue. At Holmby Avenue, rather than continuing northwesterly along the Segment Option 4R route, Segment Option 4T turns westerly to travel under Santa Monica Boulevard at Thayer Avenue. At this point, the route connects into the Segment Option 4N route, traveling west under Santa Monica Boulevard, turning north at Glendon Avenue, centered under Westwood Boulevard, turning northeast at Holman Avenue, and angling to the northeast under Glendon, Ohio, and Wilkins Avenue to Malcolm and Rochester Avenues. At this juncture, the alignment turns northward and travels under Wellworth and Ashton Avenues, under Wilshire Boulevard, curving westerly to travel under Lindbrook Drive, terminating under UCLA Lot 36. Segment Option 4T is applicable to Alternatives 1 through 5 only (Table 2-1).

To construct Segment Option 4T, 232 permanent underground easements for tunneling are anticipated (Table 5-32 and Figure 5-11). A summary of the types of land uses affected by these permanent underground easements is presented in Table 5-33. These 232 permanent underground easements are anticipated to affect 506 residences, specifically 44 single-family residences, five condominium buildings with a total of 149 condominium units and thirteen multi-family apartment buildings with a total of 313 residential units (Table 5-34).
