Agenda Item #1: Debrief of Recent Meetings

What We're Working Toward

Modifications to the Process based on Community Input

What We've Heard

- A lot of fast-paced technical information that is difficult to interpret.
- It's challenging to provide feedback when seeing only a portion of the results (i.e. only qualitative results, no rubrics) or reviewing too many projects at once.
- There was incomplete information for projects.

And in September, we will:

- Show the complete picture, including **findings of all scores and concerns** along with the rubrics and rolled-up scores for each project.
- Hold **stakeholder meetings** that look at the full evaluation results for key topics in small group settings.

Monthly Meeting Topics leading to the Investment Plan

What you've received

1. Example of draft Qualitative results (Jul 10 mtg)
2. Full draft Qualitative results (July 20 mtg)
3. Example draft Quantitative results (Aug 14 mtg)

What you will receive

1. Revised Qualitative results (Sept mtg)
2. Full draft Quantitative results (Sept mtg)
3. Draft summary scores (Sept mtg)
4. Evaluation rubrics (Sept mtg)
5. Final prioritization criteria (Oct mtg)
6. Identified flags (Oct mtg)
7. Projects/programs organized into tiers & recommended for funding (Oct mtg)

Community Engagement

What will the Investment Plan do?

- > Maintain alignment with the Vision, Goals, and Guiding Principles of the Corridor communities and stakeholders
- > Keep a focus on Equity and Sustainability as it is implemented
- > Recommend highly rated multimodal projects and programs for funding based on:
 - > alignment with Task Force Vision, Goals, and Guiding Principles;
 - > project readiness;
 - > ability to be implemented;
 - > and ability to attract federal and state funding.
- > Allocate a portion of available Metro funds initially
- > Provide funding and technical assistance for other highly rated projects and programs to help advance them towards project readiness for implementation
- > Develop programs with LB-ELA communities and Task Force stakeholders to refine, plan, and develop projects where proposed ones do not readily or comprehensively meet corridor needs.
- > Present the continuing roles of the community in moving the Plan forward.
