Higher score	20 16 13	14 13 13	11 9 10
Lower score	10 9	12 8	5 4

# # # Numbers inside boxes are hypothetical total scores for three example modes

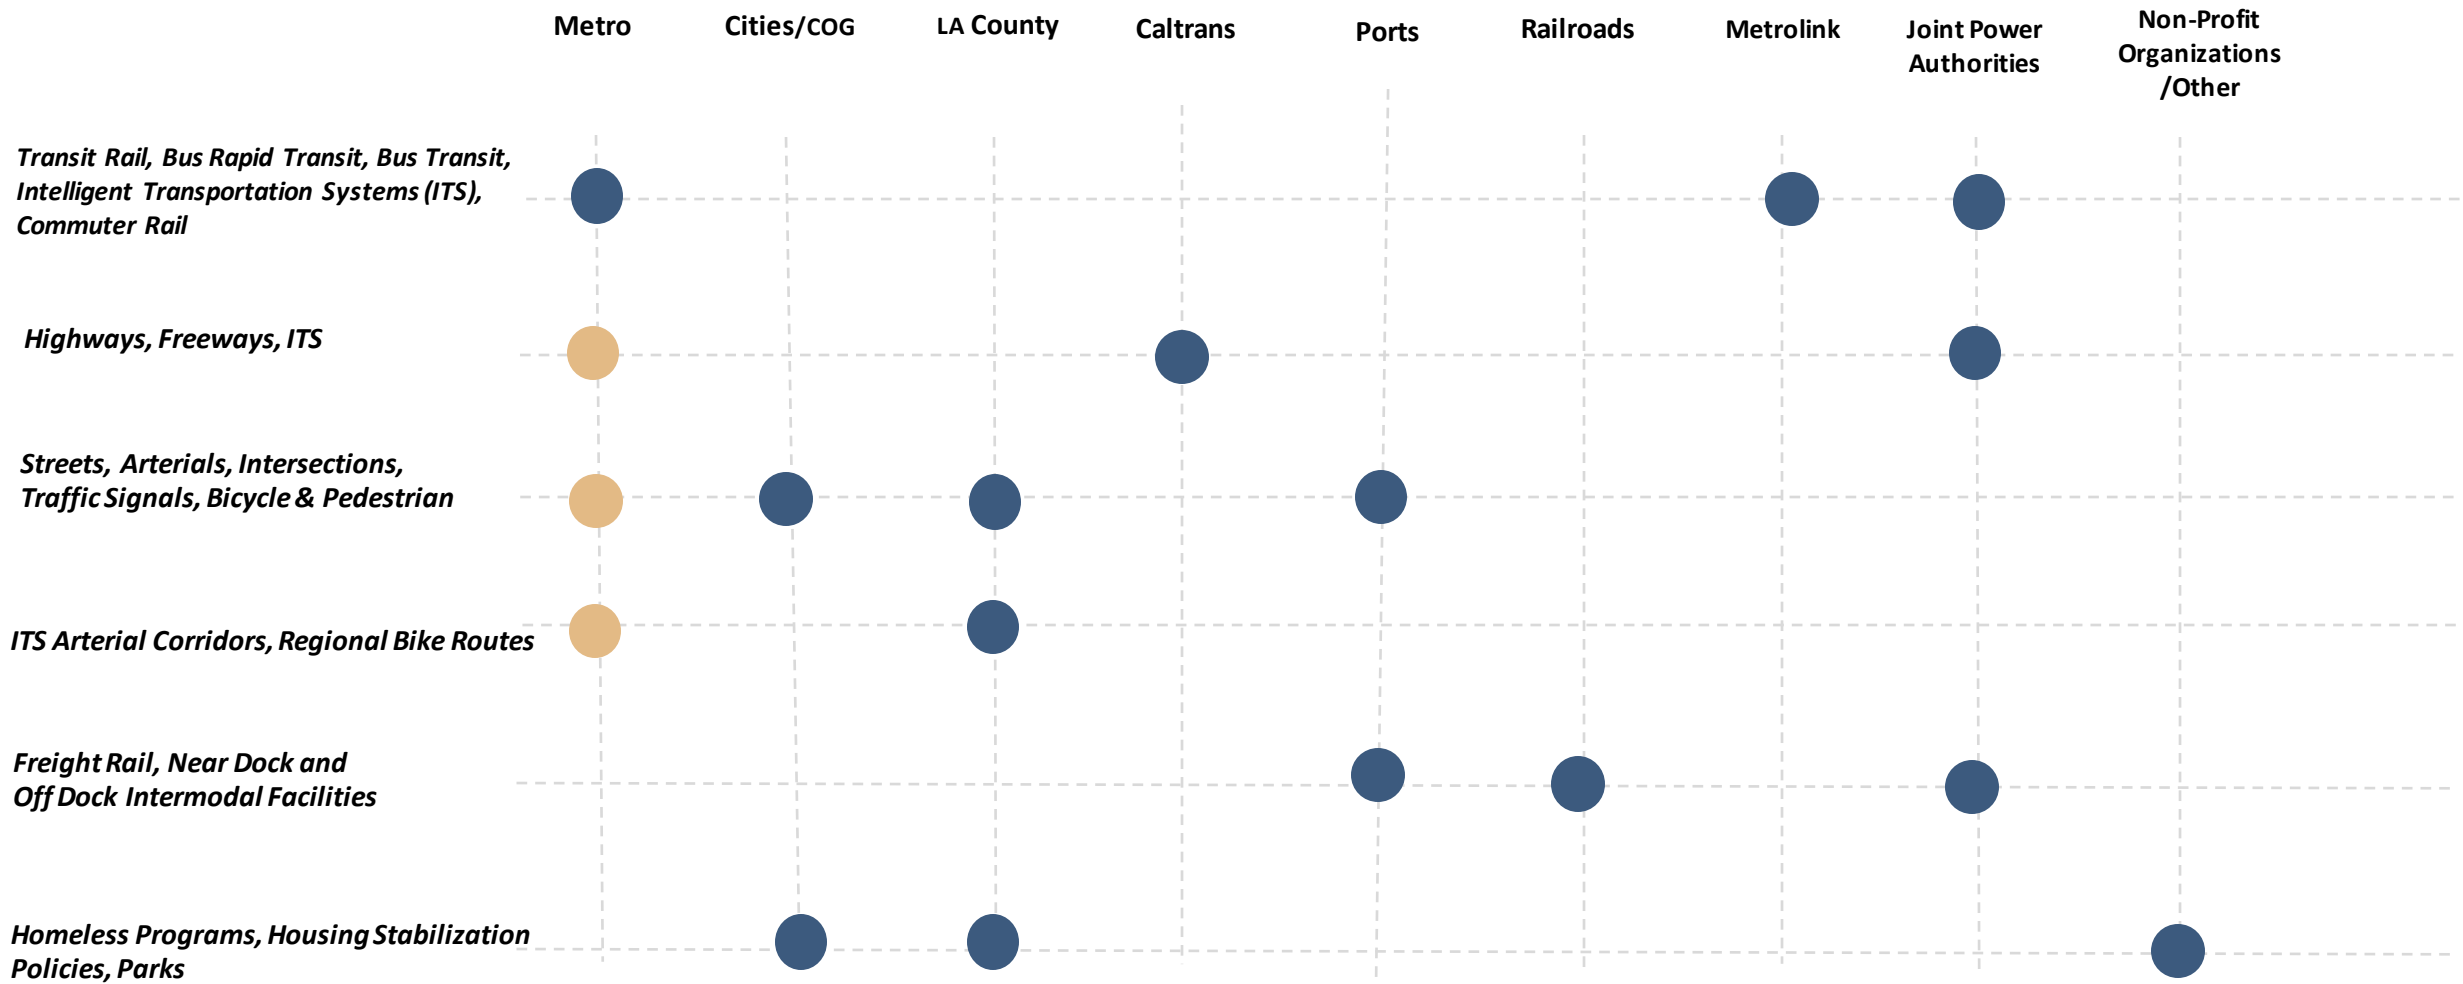

*\*This means that even though the total scores may be higher on average for certain project types, the relative rankings are important for prioritization*

# Draft Project Readiness Criteria

## Project readiness may be measured through:
