# Agenda Item #1: Debrief of Recent Meetings

# CLC Meeting - October 10<sup>th</sup> Meeting – Comments Received

- > The Draft Evaluation Results were reviewed in geographically based small groups.
- > Comments:
  - Prioritization process concerns (e.g. "eliminating" projects; projects should be "made ready.")
  - Scoring: high-scoring projects tended to be in line with project goals; high-scoring projects should prioritize people over vehicles.
  - There should be an equitable distribution of investment funds and jobs created, along with an equitable geographic allocation of projects.
  - Some concerns relating to the location of Zero-Emission Truck charging facilities.

# Task Force Meeting– October 23<sup>rd</sup> - Comments Received

- > The Draft Evaluation Results were reviewed.
  
- > Comments:
  - Updates and refinements to final results should be transparent and shared with the Task Force and CLC.
  
  - Clarify how projects move toward implementation.
  
  - Demonstrate how benefits and concerns are addressed.
  
  - Clarify freeway project improvements.
  
  - Demonstrate health and equity benefits and concerns.

# Zero-Emission Truck Working Group - October - Highlights

## Tuesday, October 3<sup>rd</sup>

- Received a guest presentation on California's Advanced Clean Fleets (ACF) Rule from Dr. Genevieve Giuliano to review prospects, pathways, and challenges for the ACF regulation
- Reviewed highlights from Legislative Platform stakeholder interviews and started discussion on legislative and governmental affairs priorities to support the advancement of ZE infrastructure throughout the LB-ELA Corridor/Study Area.

## Tuesday, October 31st

- Received information on LACI'S Blueprint Implementation Grant Funding request and conducted a test for consensus on whether to support the staff recommendation to commit \$2M of the \$50M in seed funding to co-fund the project.
