

UPCOMING ATP TOOLS

INTERIM COUNT GUIDANCE (ICG)

ATP ICG shall be used by ATP project sponsors to help ensure the capture and reporting of consistent and reliable bicycle and pedestrian user counts.

All projects seeking construction (CON) allocation at the October 2019 California Transportation Commission (CTC) meeting, and after, is required to use the ICG to perform pre-construction counts prior to construction award and post construction counts in accordance with the ICG instructions.

All infrastructure and non-infrastructure projects require user counts. Counts are not required for plans.

User Count	When Required
Before User Counts	Prior to construction or consultant award
Projected After User Counts	Project Completion Report
Actual After User Counts	Project Final Delivery Report

AUTOMATED COUNTER LOAN PILOT PROGRAM

The Active Transportation Resource Center (ATRC) will offer temporary bicycle and pedestrian automated counters for local agencies to borrow for conducting user counts for ATP projects.

Options of equipment includes:

- ◆ Tube (bike only)
- ◆ Infrared (pedestrian only)
- ◆ Multi (bike and pedestrian)
- ◆ Miovision Scout (video data)

⇒ A 'Terms of Use' agreement is required with the borrowing agency.

⇒ Usage guides and technical assistance will be available.
