Green Line Extension to Torrance
ProjectLos Angeles Conservancy
523 West Sixth Street, Suite 826
Los Angeles, CA 90014**Subject: Green Line Extension to Torrance Project, Los Angeles County, California**

Los Angeles Conservancy:

AECOM is conducting a cultural resources analysis for the proposed Green Line Extension to Torrance Project, located in Los Angeles County, California. The Los Angeles County Metropolitan Transportation Authority (Metro) has initiated a Draft Environmental Impact Report (EIR) for the Green Line Extension to Torrance Project (Project) pursuant to the California Environmental Quality Act (CEQA). Metro is the lead agency for the Project. The Project is a proposed light rail transit (LRT) line that would extend approximately 4.5 miles from the end of the existing Metro Green Line in Redondo Beach southeast to Torrance. The proposed LRT line would connect the Metro system further into the South Bay, serving the cities of Redondo Beach, Lawndale, and Torrance. The Project Area is primarily urbanized, with a wide-range of existing and planned land uses.

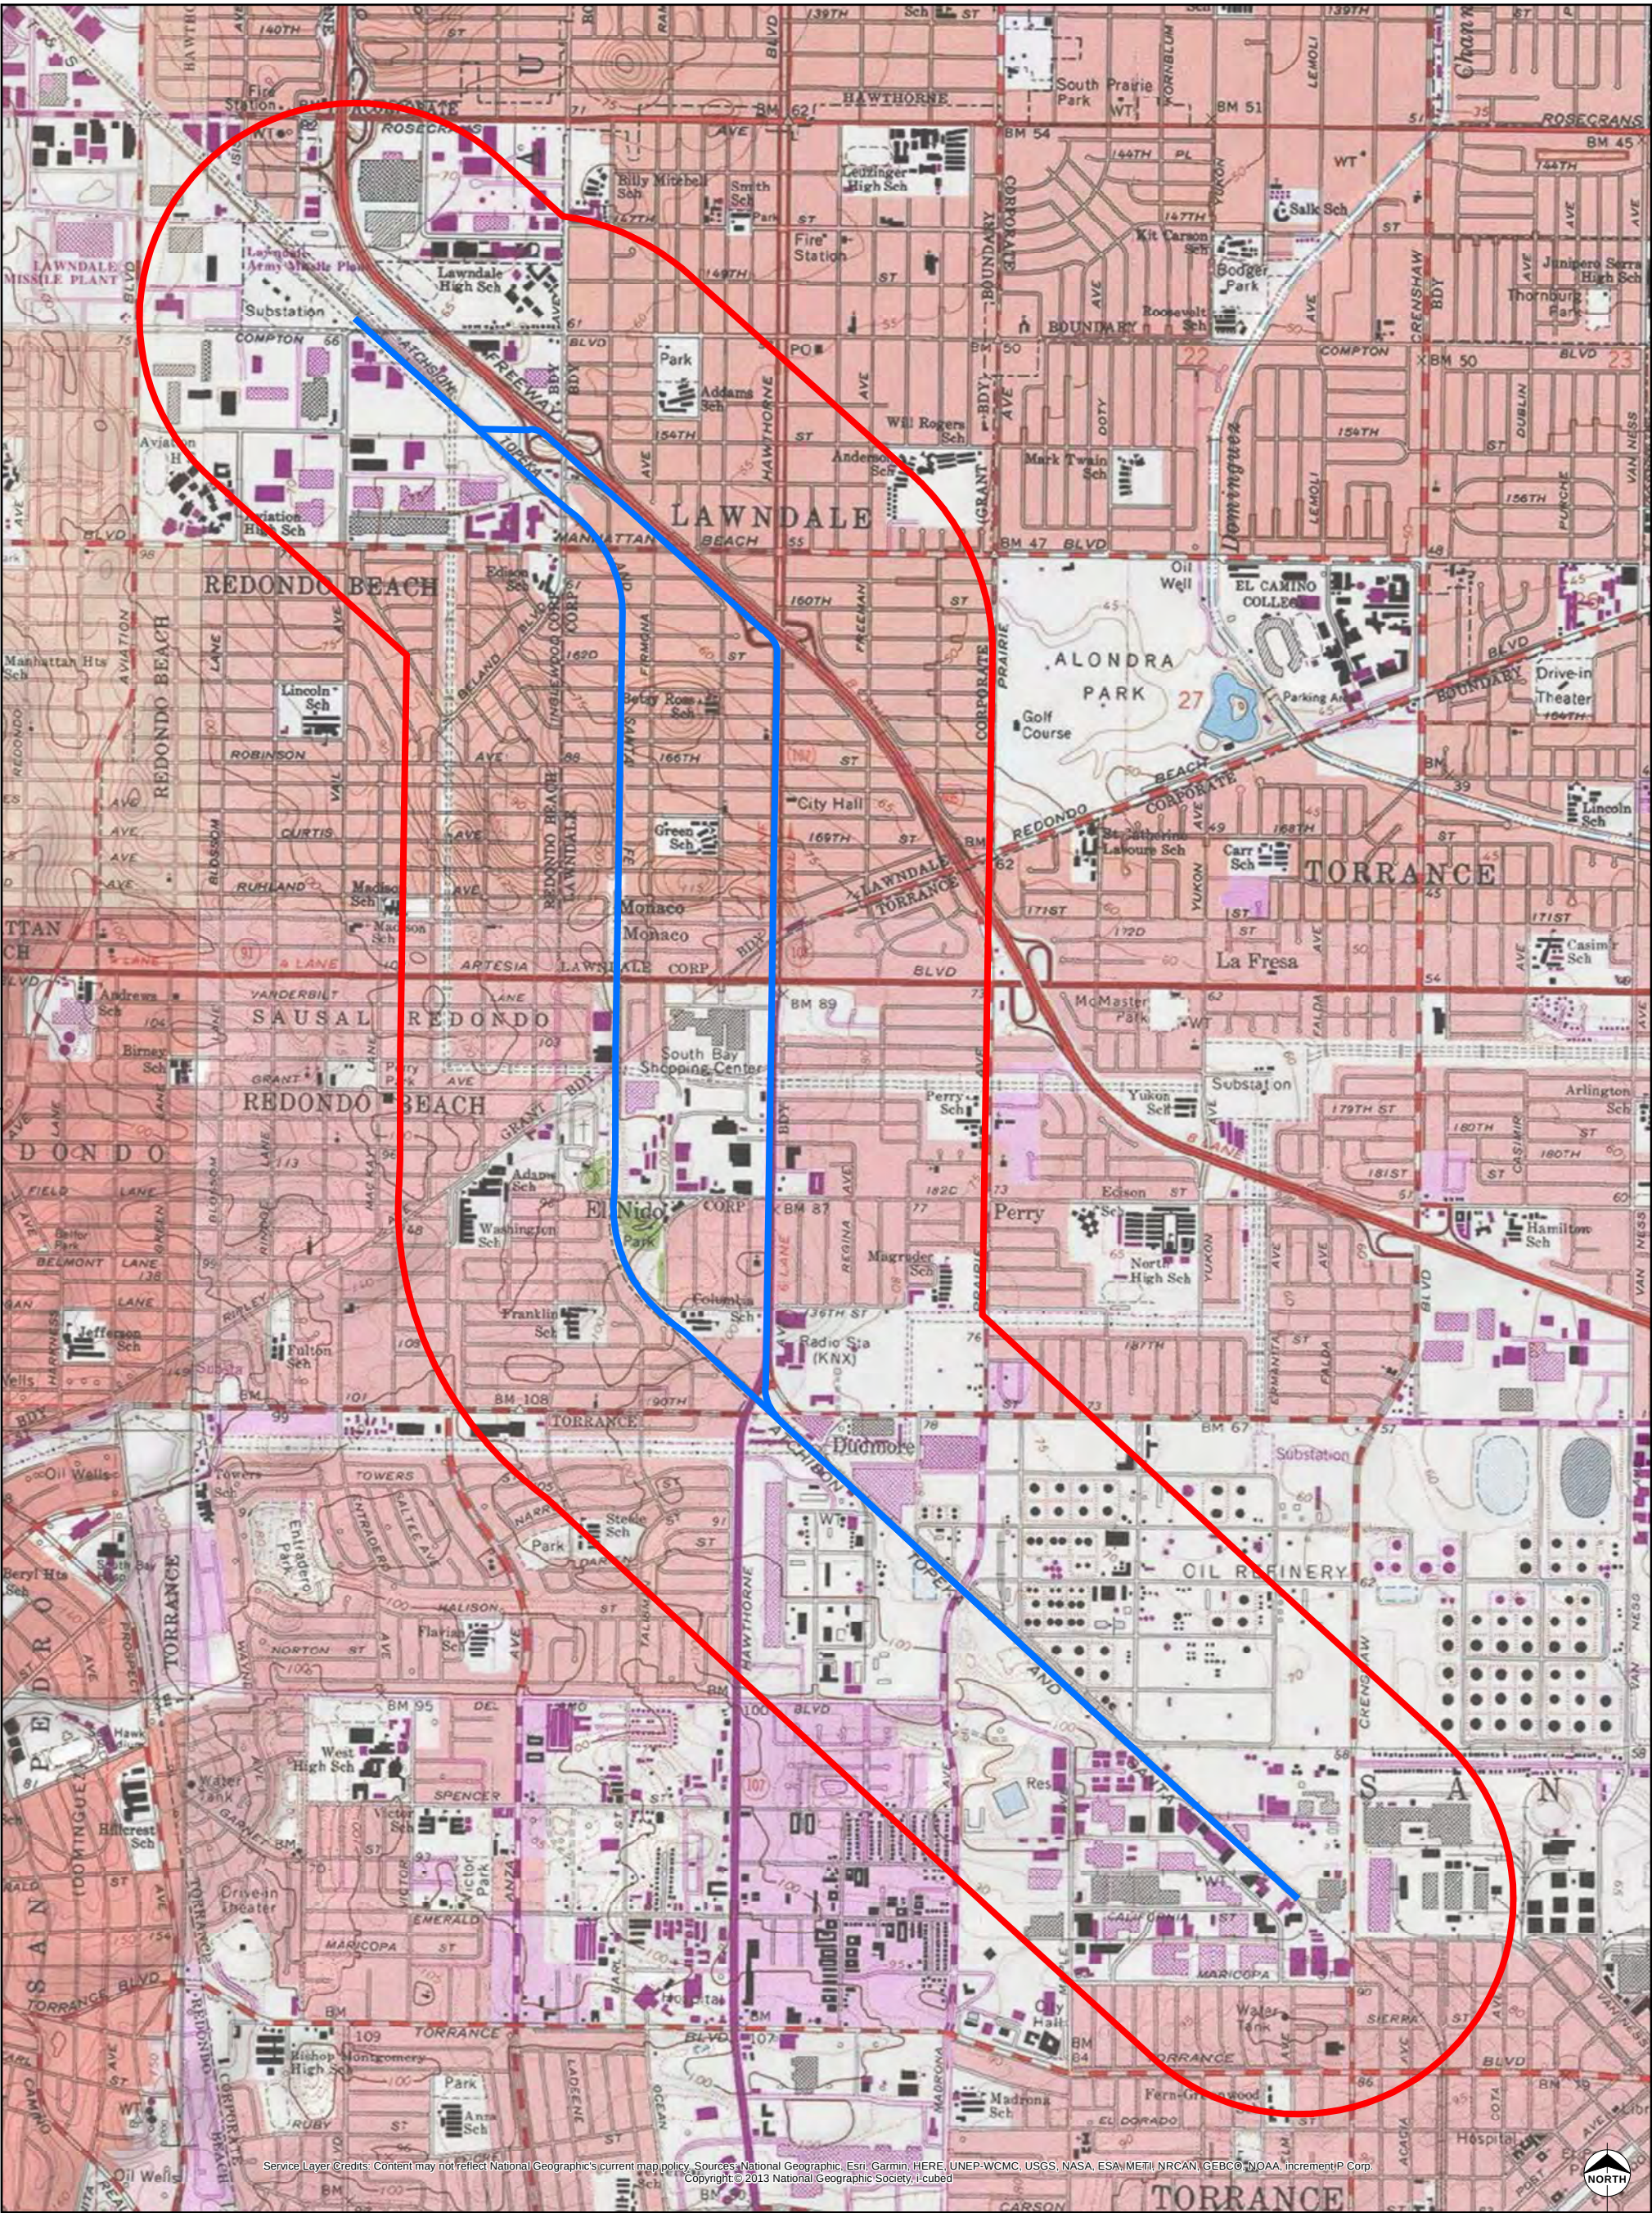

The Project is located within the Hollywood, Inglewood, and Torrance, California United States Geological Survey (USGS) 7.5-minute quadrangle maps (Enclosure 1, Project Map).

The purpose of this letter is to solicit your knowledge regarding any cultural resources of concern near the project area. Please contact us if you have any information that you would like to contribute to the cultural resources report. A project map is provided for your reference. Please return the enclosed reply form with any comments at your earliest convenience.

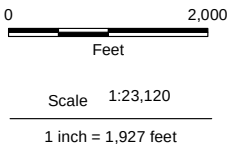

Sincerely,

Monica Wilson
