East San Fernando Valley – Shared Right of Way Study

Project Background:

- Shared ROW runs along the railroad tracks on San Fernando Rd and extends approximately 2.5 miles northwest from Van Nuys Bl to the Sylmar/San Fernando Metrolink Station.
- Project area includes Pacoima and Sylmar and the City of San Fernando.

Community Outreach:

- Metro engaged with over 900 community members throughout the region.
- Participated in local community events sharing information and engaging the community about the Shared ROW Study.

Project Status:

- At its December 2025 Metro Board of Directors Meeting, the Board unanimously approved Scenario 2.
 - Advances plans for a new Pacoima Metrolink Station and new mobility hub at Van Nuys Bl and San Fernando Rd.
 - Rail Crossing safety improvements at six (6) at-grade rail crossings along the 2.5-mile corridor as part of improvements to the Metrolink Antelope Valley Line (AVL).

M **Next Steps:** Metro will continue communicating and engaging with the community on the project design and development.

Transforming the Corridor

Improve connections and access for commuters and travelers along the project corridor.

Address the needs of a large transit-dependent population and expected growth in ridership.

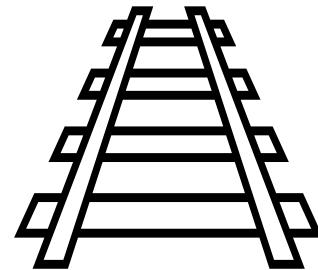

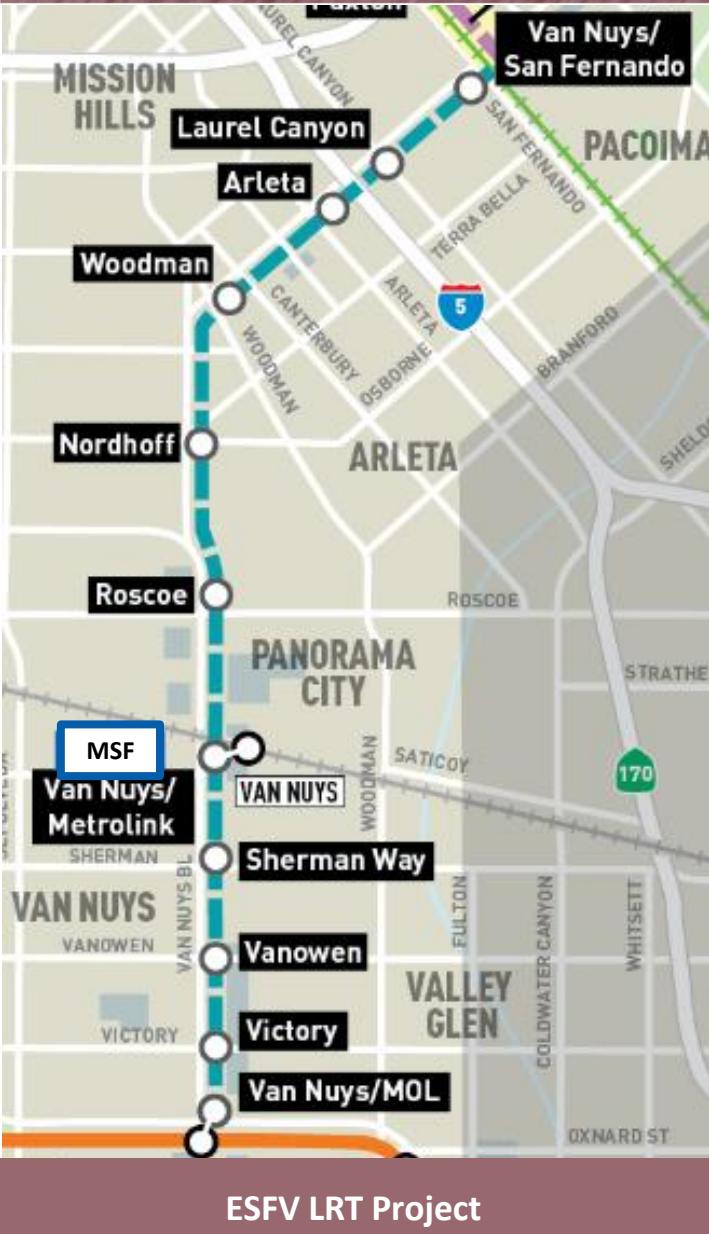

Provide easy access to Metrolink and G Line stations to encourage both local and regional travel.

Tree Removal and Replacement Process

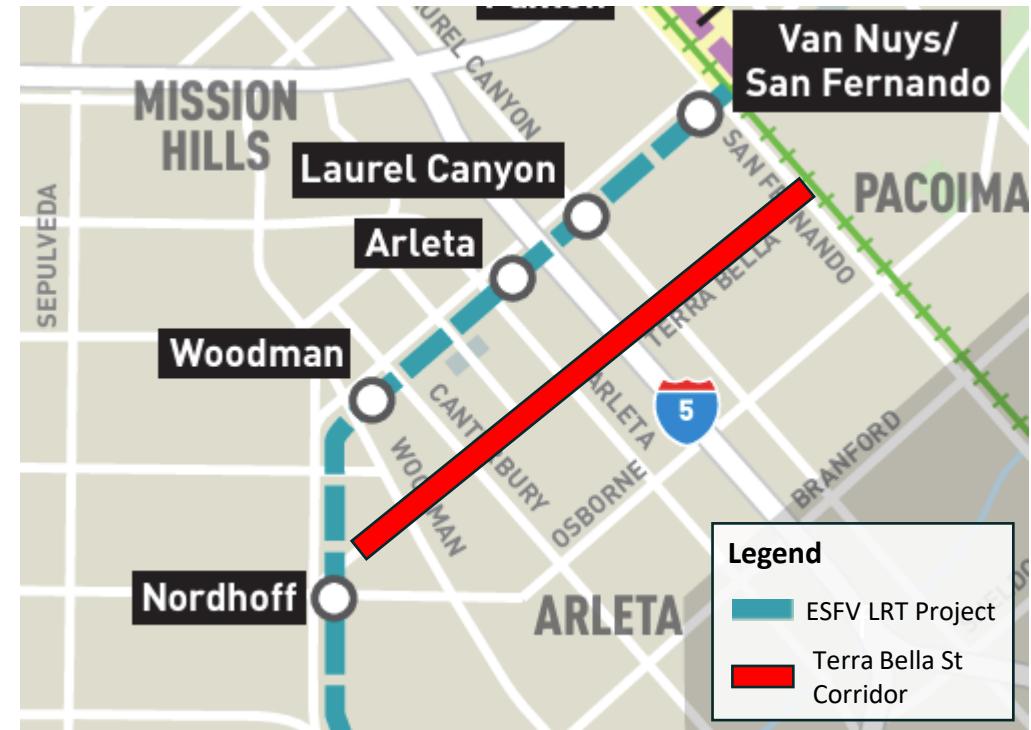

- Design and Tree Plan: Remove & Replant Trees
- Trees Permit Process
- Timeframe of Activities

Terra Bella Street Lane Reconfiguration and Bike Lanes

- Metro is making changes to Van Nuys Bl, including removing the existing bike lanes on Van Nuys Bl, between Parthenia St and San Fernando Rd.
- Removal is required to make room for the new train guideway, vehicular travel lanes, and ADA compliant sidewalks.
- As a mitigation measure, the Metro Board approved a Board report directing Metro staff to work with the City of Los Angeles to identify a parallel corridor to replace the Van Nuys Bl bike lanes prior to construction.
- Metro, in coordination with LADOT, has identified Terra Bella St, between Wakefield Av and San Fernando Rd, as the replacement location of the bikeway.
- The Terra Bella St corridor provides similar benefits and aligns with the City of Los Angeles Mobility Plan 2035.
- Constructing the new Class II bike lanes on Terra Bella St will change the existing street reconfiguration.

Street Conditions on Terra Bella St from I-5 Freeway to Laurel Canyon Bl

Existing street conditions on Terra Bella St, from I-5 Freeway to Laurel Canyon Bl

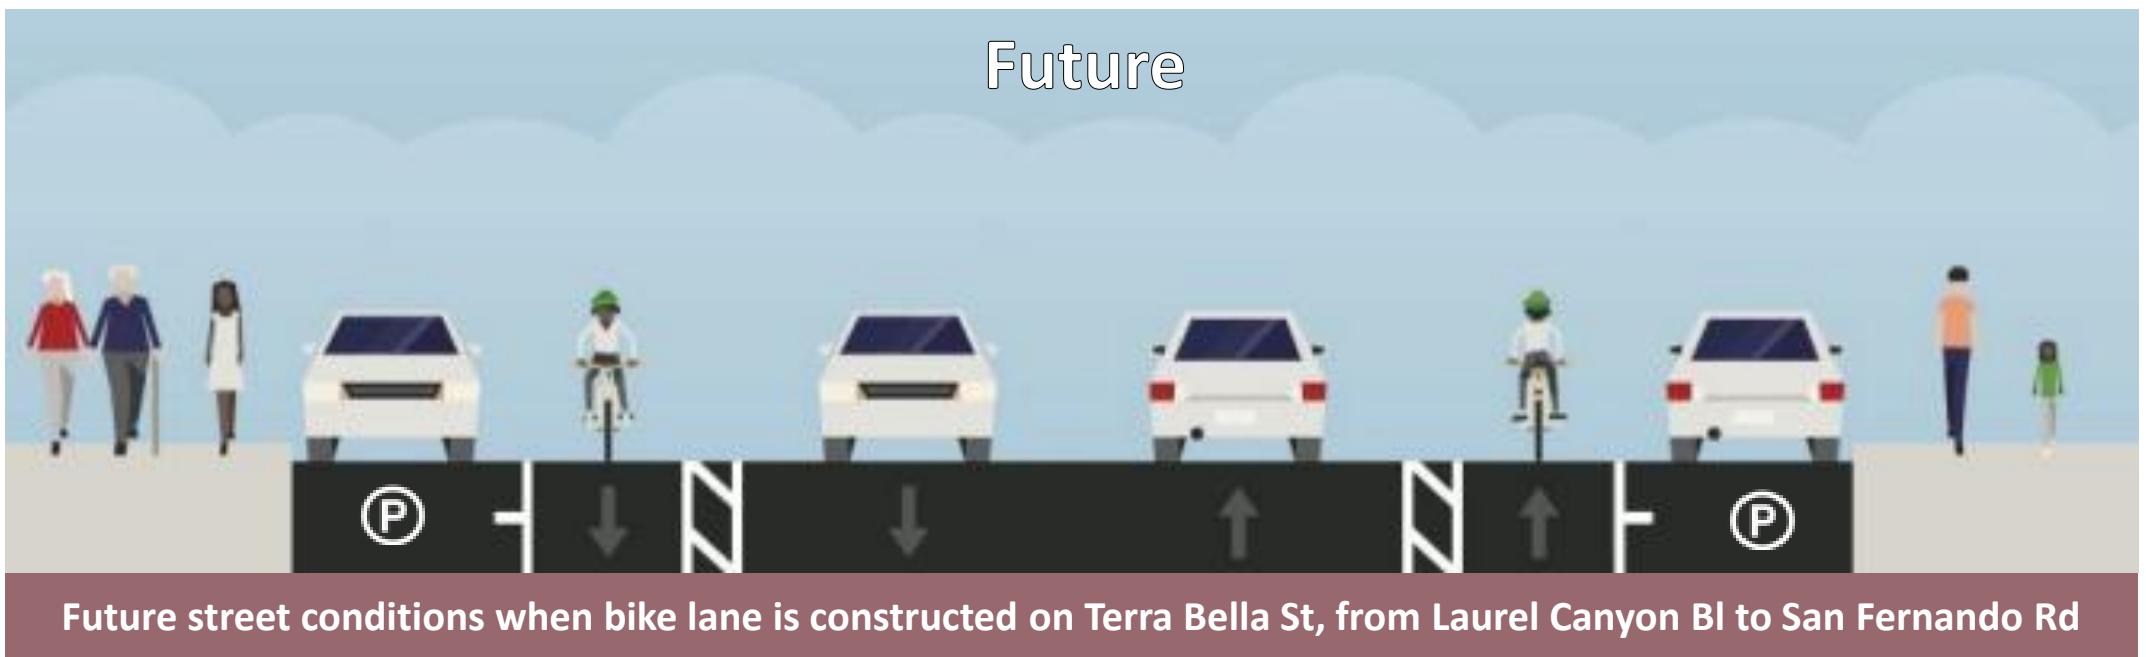

Future

Future street conditions when bike lane is constructed on Terra Bella St, from the I-5 Freeway to Laurel Canyon Bl

Street Conditions on Terra Bella St from Laurel Canyon Bl to San Fernando Rd

Construction Activities and Post-Construction Street Reconfiguration

Construction of the bike lane will involve removal of the existing street striping, applying a slurry seal, and restriping the roadway. Construction is expected to take place during daytime hours for a period of one month. Work is expected to begin Spring 2026/early Summer 2026.

New lane configuration will create a calmer, safer, more neighborhood-oriented street for the many residents and schools in the area.

Some areas along Terra Bella St will require the removal of on-street parking to accommodate changes to the street layout. Parking will be added to other locations along Terra Bella St by converting existing red curb and “No Stopping” areas to parking. Overall, this project will add more parking on Terra Bella St.

Traffic impacts were analyzed during project development and showed that the changes needed for the new bike lanes on Terra Bella St, will result in only minimal travel time increases once installed.

Current and Upcoming Third-Party Project Construction (Los Angeles Department of Water and Power)

- LADWP is continuing with activities supporting relocations throughout the project corridor. This work is expected to continue through 2026.
- Work includes day shifts from 9am to 3pm and/or night shifts from 8pm to 6am.

Upcoming Work: Cable pull activities at UA 6, UA 7, UA 4 and UA 2/3

- **When:** TBD.

Upcoming Work: Potholing, duct bank, and vault installation at UA 5 from Haddon St to Kewen Av

- **When:** Mid-April to Mid-July 2026

Current Work: Vault and duct bank installation at UA 8 from Parthenia St to Parthenia St(N) including side streets such as Tobias Av

- **When:** February to October 2026

Current Work: Conduit installation at UA 2/3B on Van Nuys Bl from Saticoy St to Arminta St

- **When:** February 9 to February 27, 2026

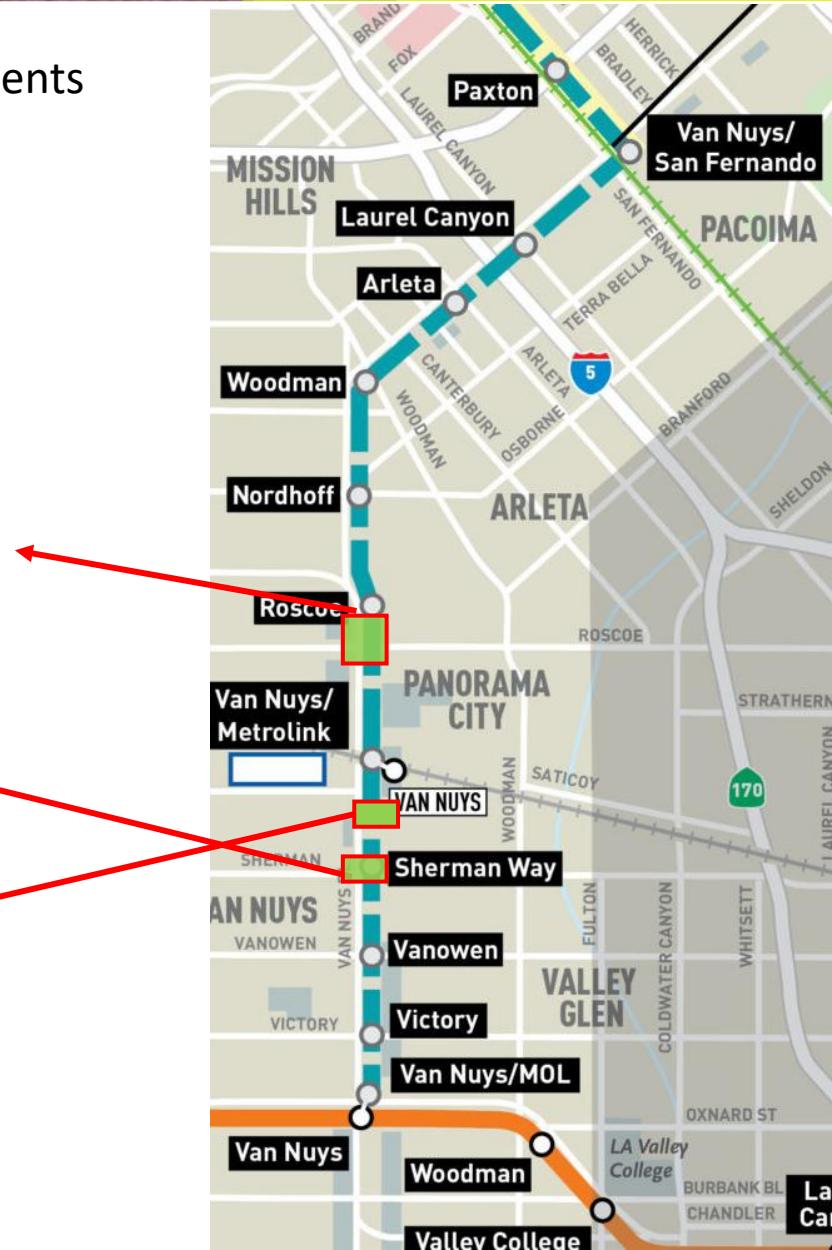

Upcoming Third-Party Project Construction (Southern California Gas)

- The Southern California Gas Company (SCG) is conducting relocation and abandonments throughout the project corridor on behalf of the project.
- This work is expected to continue through 2026.
- Metro will provide a construction notice for all SCG project-related work.

Ongoing Work: Gas line relocation at Roscoe Bl

- **When:** Expected to resume in March 2026
- **Notable:** Night work from 8pm to 6am and day work on Saturdays from 8am to 6pm.

Ongoing Work: Gas line relocation at Sherman Way

- **When:** Began in the Fall 2025 and continues through Spring 2026
- **Notable:** Night work 8pm to 6am and day work on Saturdays from 8am to 6pm.

Upcoming Work: Gas line relocation at Wyandotte St

- **When:** May 2026 (Estimated)
- **Notable:** Night work 9pm to 5am (Monday - Saturday)

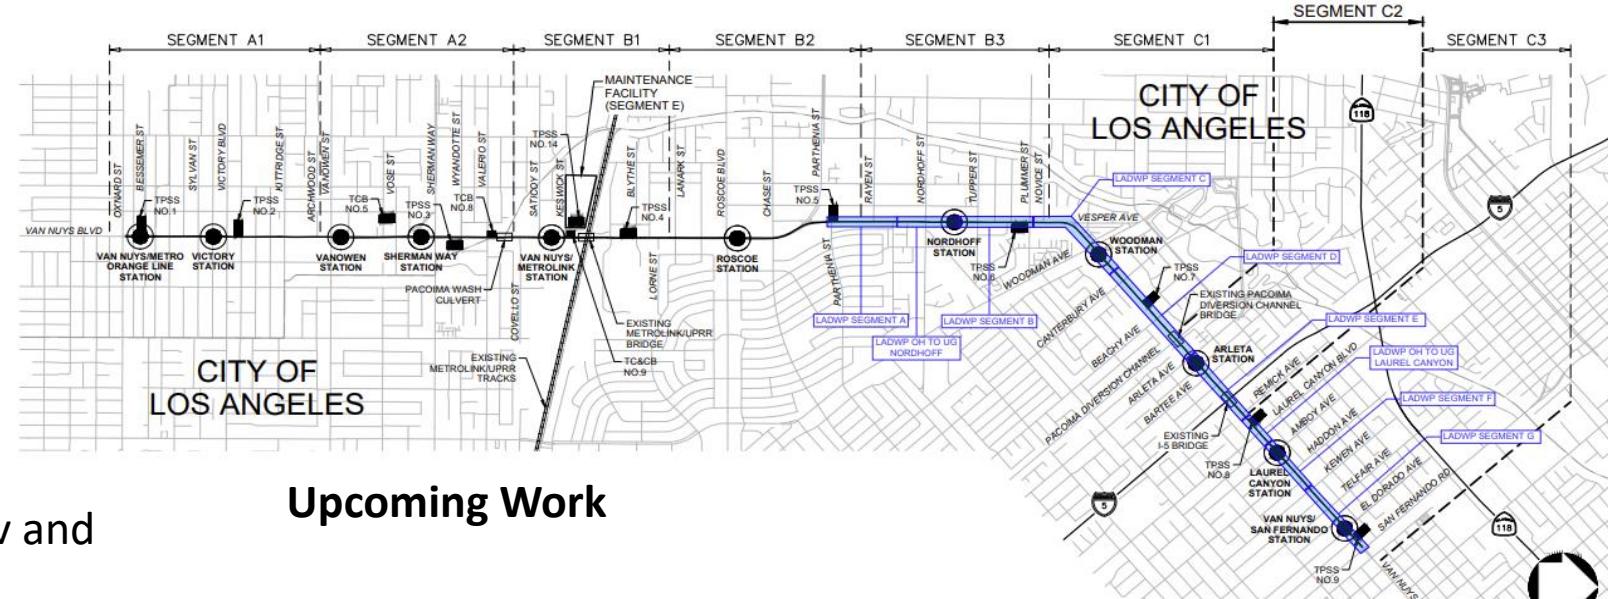

LADWP Improvement Project Work (Not Related to ESFV LRT Project)

Activity: LADWP is continuing to work on their Improvement Project throughout the project corridor.

Locations: Various locations within the Project corridor.

Current/Ongoing Work Activities:

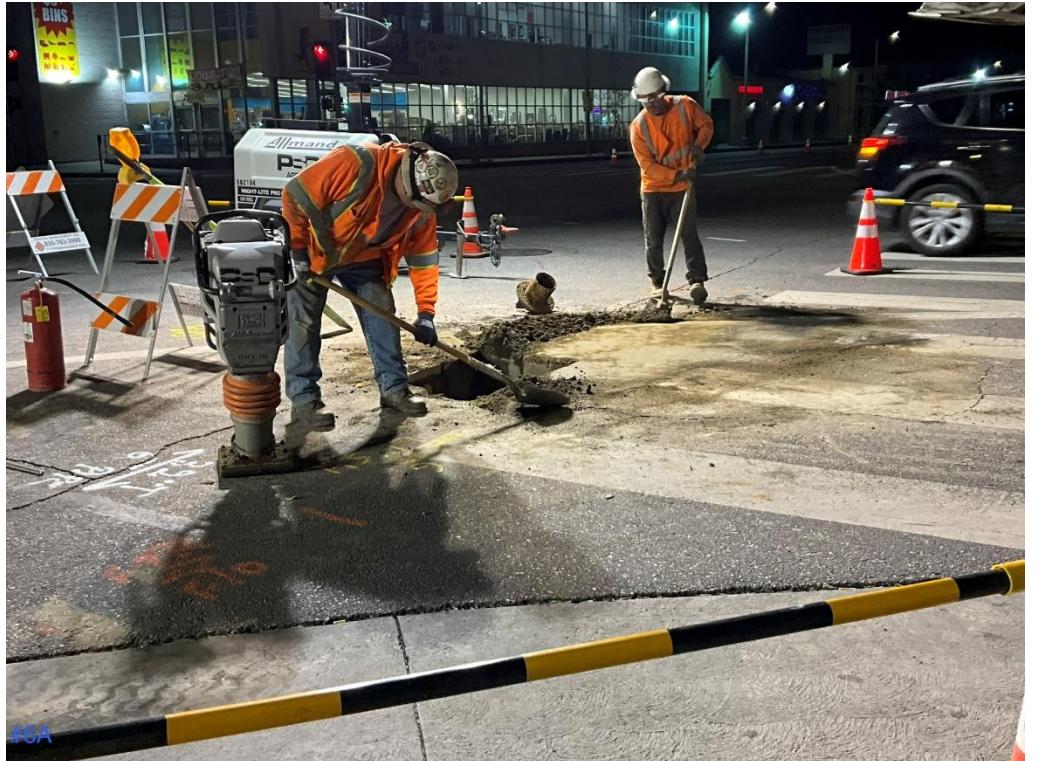

- Segment F: Van Nuys Bl between Rincon Av and Kewen St. (Day and Night work)
 - Duct bank and vault installation work
 - Date: October 2025 to June 2026
- Segment A: Van Nuys Bl at Parthenia St and Osborne St
 - Work: Potholing, duct bank and vault installation
 - Date: Early February 2026 to December 2026

Upcoming Work

- Segment C: Van Nuys Bl Between Plummer St to Canterbury Ave
 - Work: Duct bank and vault installation work
 - Date: Starting work Mid-Feb to End of March
- Segment G: Van Nuys Bl between Kewen St and San Fernando Rd
 - Work: Potholing
 - Date: Mid to late February

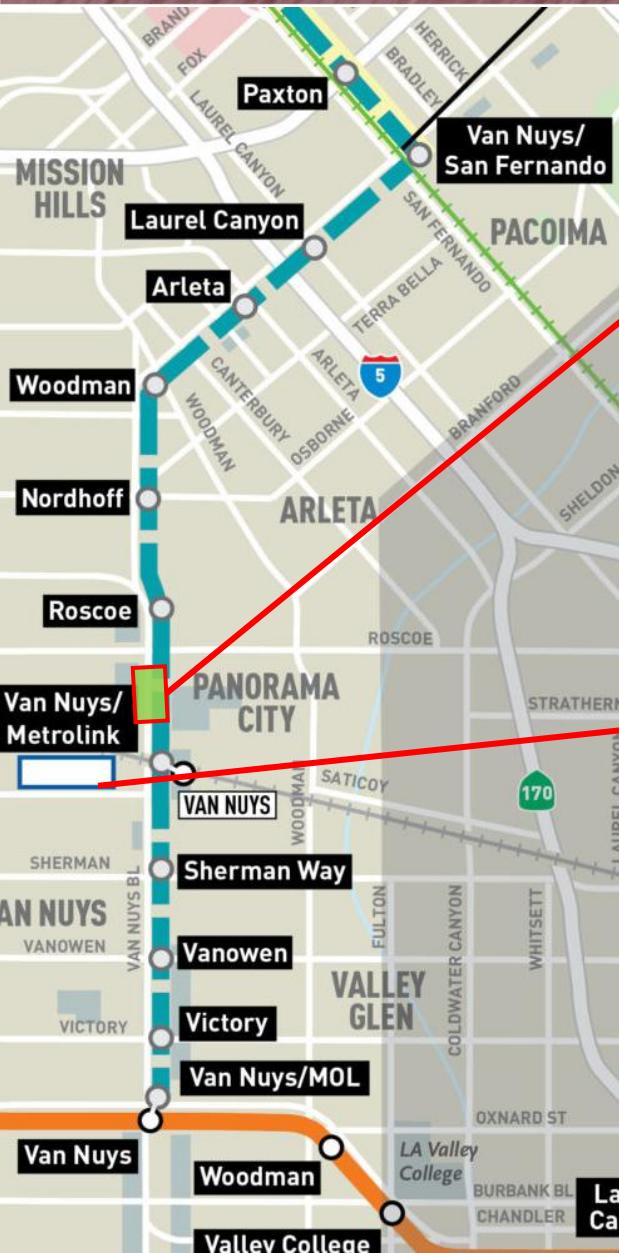

Third-Party Construction Photos

Trenching and excavation on Van Nuys Bl near Roscoe Bl for SoCalGas Work.

Scan the QR code to see the latest construction notices with full details on current work activities:

Current Work: Utility relocation work at Van Nuys Bl and Blythe St.

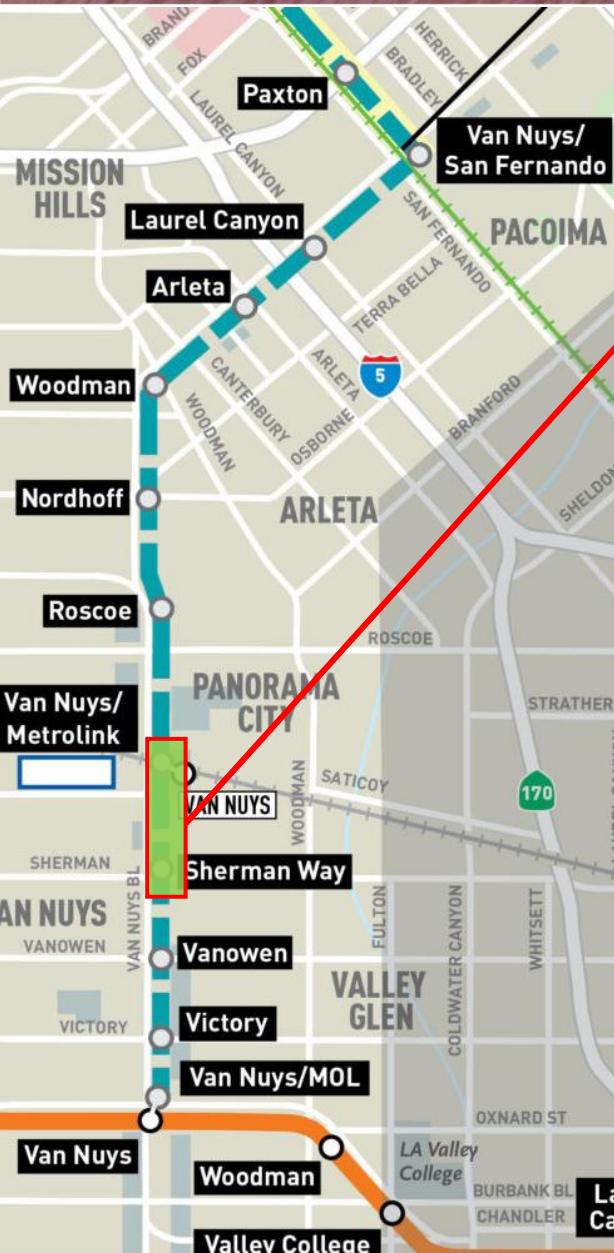

- When:** Beginning October 2025 and will complete Spring 2026.
- Notable:** Night work involving full street closure of Blythe St and work in the intersection. Water service will be interrupted during the relocation work.

Current Work: Continued abatement and demolition work of properties acquired to construct the MSF.

- When:** Work began February 2025 and started back-up again in late-Fall 2025.
- Notable:** Work will continue as Metro acquires properties for the future MSF site and is expected to last through Fall 2026.

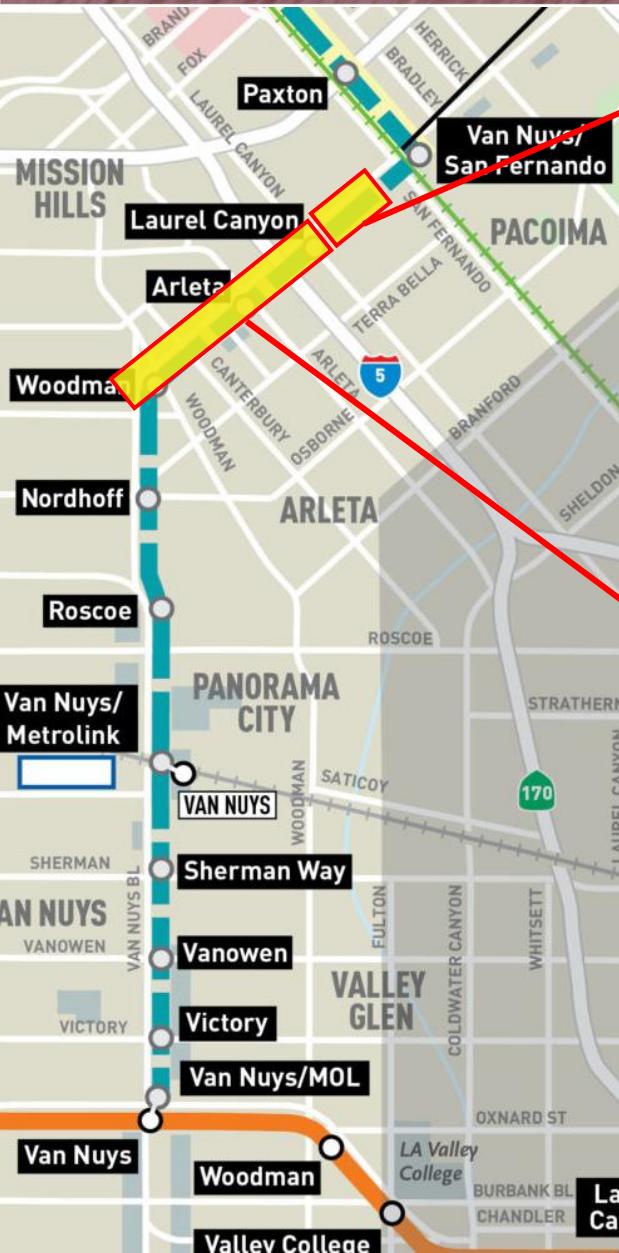

Current Project Construction (SFTC)

Van Nuys

Current Work: Utility relocation work on Van Nuys Bl between Gault St and Arminta St.

- When:** Began April 2025 and will complete December 2026 (20–24-month duration).
- Notable:**
 - Work will require directional street closures and full street closures on Van Nuys Bl between Sherman Wy and Arminta St during the night on weekdays and during the day on weekends. The following closures anticipated or ongoing are:
 - Saticoy St, west, anticipated to begin winter 2026.
 - Covello St, east, anticipated to be completed in winter 2026.
 - Valerio St, west, continues through winter/Spring 2026.
 - Valerio St, east, tentative date to begin in Spring 2026.
 - Directional closures of Van Nuys Bl between Arminta St and Sherman Wy began on January 26, 2026, and continue through June 2026.

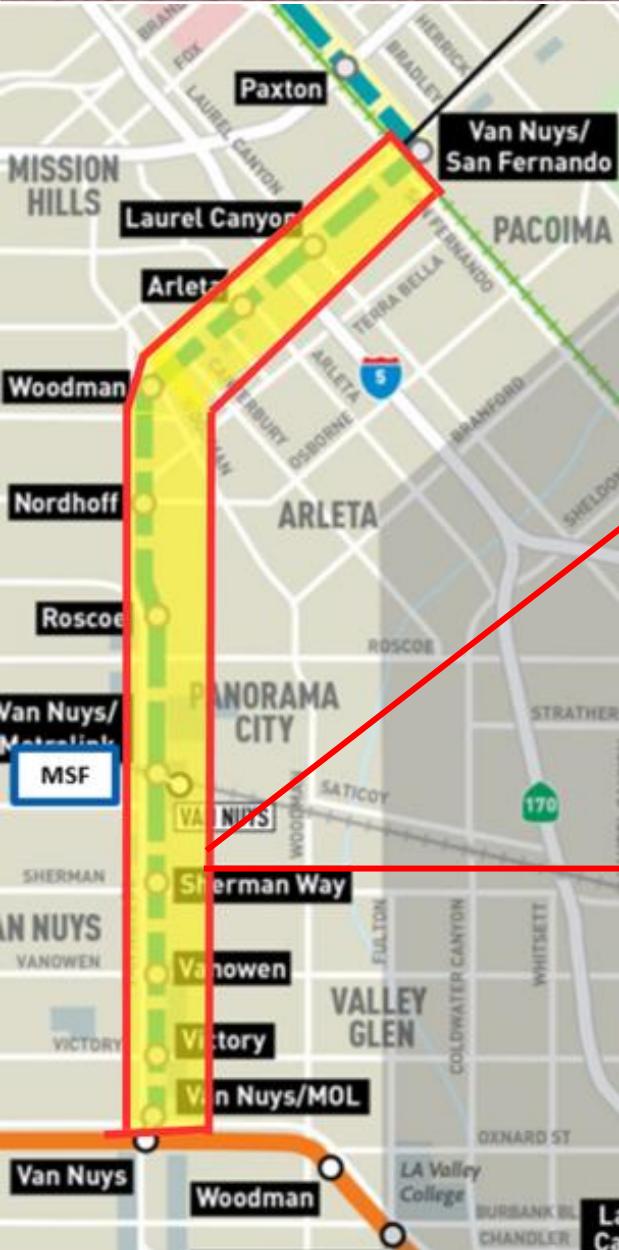

Current Work: Utility relocation work at Van Nuys Bl and Haddon Av.

- When:** Began in late-Fall 2025.
- Notable:** Work will be conducted primarily during the night. There may be parking restrictions during the proposed work. Please follow the posted signage.

Current work: Utility investigation work along Van Nuys Bl from Vesper Av to San Fernando Rd.

- When:** Anticipated to begin Winter 2026.
- Notable:** Work will be conducted primarily during the night. There may be parking restrictions during the proposed work. Please follow the posted signage.

Project Construction (SFTC)

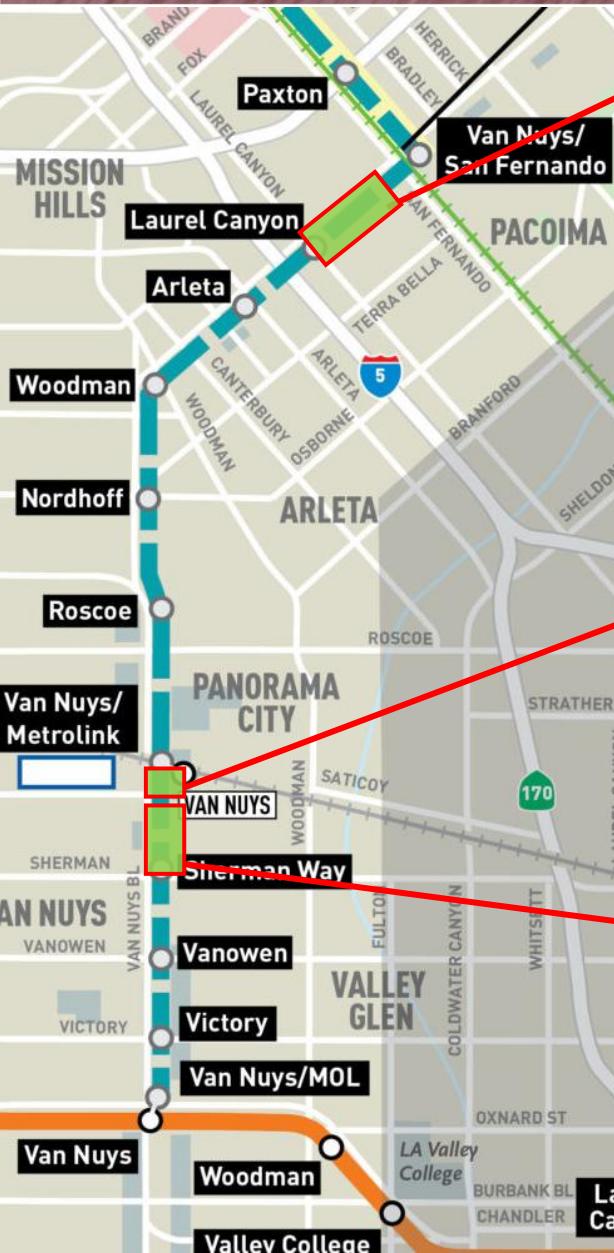

Current Work: Tree replacement along the project corridor on side streets.

- **When:** Began October 2025 and will continue through winter 2026
- **Notable:**
 - This effort begins the replacement of trees removed for project construction, fulfilling the City's two-for-one requirement. Replanting will continue throughout project construction.

Current Work: Utility investigation work along the corridor between Oxnard St and San Fernando Rd.

- **When:** Restarted in December 2025 and continues through 2027.
- **Notable:** Investigation to support ongoing and future construction activities.

Future Work Project Construction (SFTC)

Water Line Installation Work on Van Nuys Bl between Laurel Canyon Bl and Telfair Av

When: Work anticipated to begin winter 2026.

- Notable:** This effort begins with the replacement of a water line on Van Nuys Bl. Work will involve installation K-rail concrete barriers at a future date.

Pacoima Wash Culvert Replacement K-rail Installation work

When: Work anticipated to begin Spring 2026 through Fall 2026.

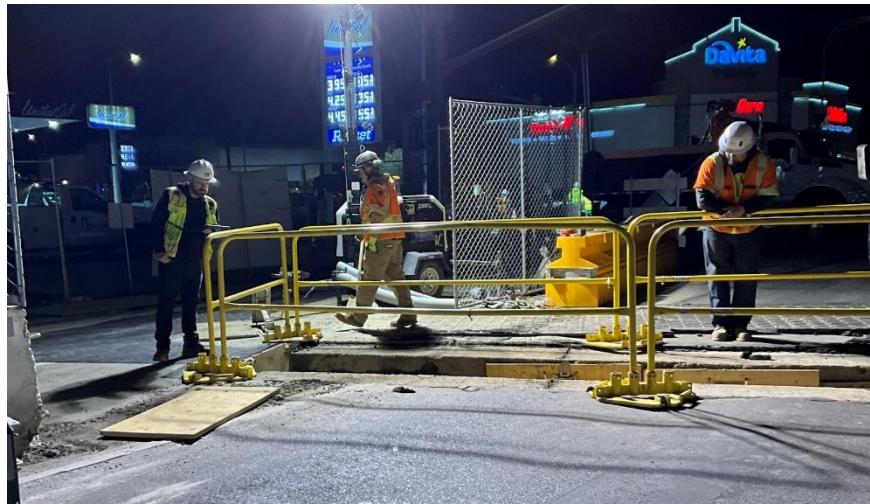

- Notable:** There will be demolition and replacement of a portion of the culvert box to support the weight of the train tracks. K-rail will be installed as part of this work.

Sewer Utility Work and K-rail Installation

When: Work anticipated to begin Q3 2026.

- Notable:** This effort begins the replacement of a sewer line along the westside of Van Nuys Bl.

Project Construction Photos (SFTC)

Real Estate Acquisitions

MSF rendering (located west of Van Nuys Bl and Keswick St)

TPSS rendering (located along corridor)

Maintenance and Storage Facility Acquisitions Status

- 14 Metro-owned; including 2 previously owned
- 4 Resolution of Necessity (RON) Approved
 - 4 RON properties have been turnover to Metro
- 1 owner in litigation agreed to a settle

Traction Power Substation (TPSS) Acquisitions Status

- 2 Metro-owned
- 5 In escrow (TPSS 9 consists of 3 parcels)
- 1 in Negotiations
- 1 Resolution of Necessity (RON) Approved

Train Control and Communications Bungalows (TCB/TCCB)

- 1 Metro-Owned

Real Estate Relocations

Relocation benefits will be offered to help businesses and residents displaced by the acquisitions.

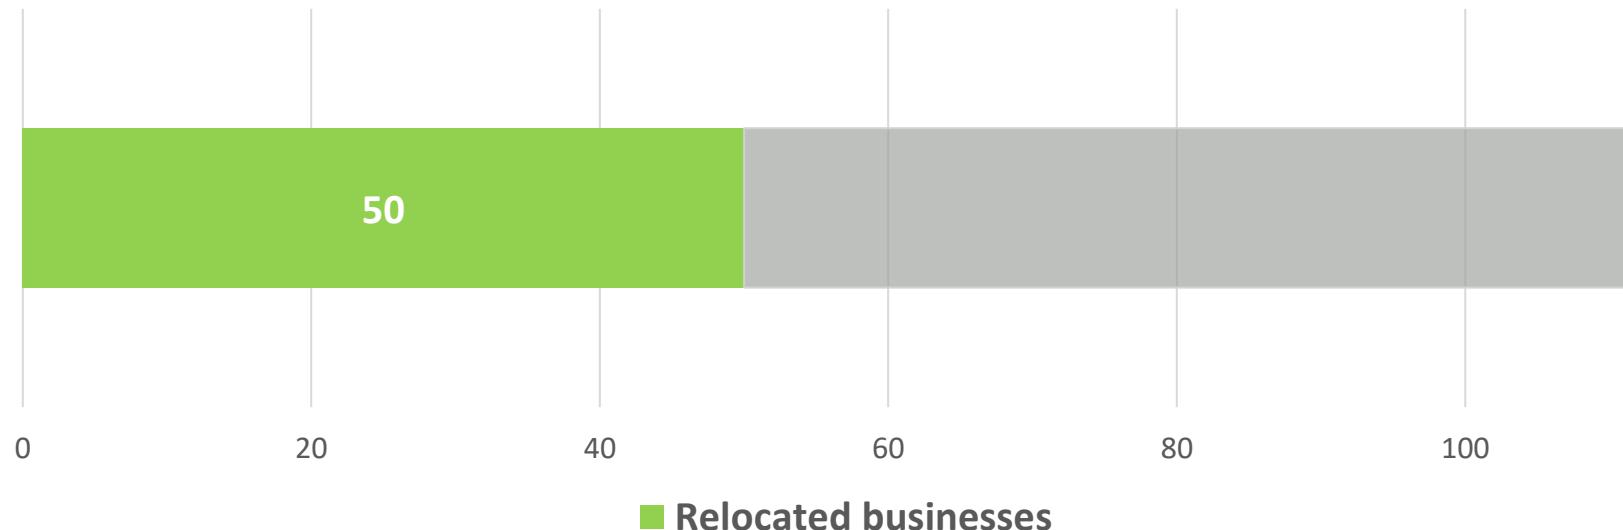

A Relocation Plan for the ESFV LRT was approved by the Metro Board in November 2023.

Metro Real Estate continues with acquisition and relocation efforts as the project advances and will keep the community informed on progress.

Support local businesses as we build more rail for LA.

Eat Shop Play

Business Interruption Fund (BIF)

- Metro's Business Interruption Fund (BIF) provides up to \$60,000 per impact year to support small “mom and pop” businesses affected by rail construction.
- Eligibility:
 - Located immediately next to the rail corridor for at least 2 years;
 - Have 25 or fewer full-time employees;
 - Directly impacted by adjacent construction;
 - Meet other eligibility requirements as applicable.
- All eligible business owners are encouraged to apply to BIF and are not denied grant funding. Grant amounts are determined by business revenue loss directly related to the period of Metro construction disruption.
- As of January 30, 2026 - Metro has awarded **\$52,324,413.67** and **1,929** BIF grants across four major capital projects.

 **Scan the QR code to learn how to apply for the BIF Program:**

ESFV BIF Grant Activities

Grants by Station		
Station	# of Grants	Grant Amount
Van Nuys/MOL	2	\$ 99,215.00
Van Nuys/Victory	5	\$ 244,213.13

Eat Shop Play

- Enrolling and participation in Eat Shop Play is FREE to local businesses within a quarter mile of select project alignments
- Eat Shop Play supports local business throughout construction by providing:
 1. Virtual marketing webinars that train and upskill business owners for a changing economic landscape (with options for flexible, multilingual learning)
 2. One-on-one coaching sessions that help business owners set and work toward professional goals
 3. Professional onsite photo / video shoots (on a case-by-case basis as opportunities arise)
 4. Additional promotion in print and digital campaigns (as opportunities arise)

EAST SAN FERNANDO VALLEY LIGHT RAIL TRANSIT PROJECT

February 2026

Join us!

The East San Fernando Valley Light Rail Transit (ESFV LRT) Project will improve connections and access to crucial destinations while connecting transit users to the growing network in the San Fernando Valley. The Project includes a 6.7-mile at-grade alignment that will operate in the center of Van Nuys Bl from the Metro G Line Van Nuys Station to San Fernando Rd.

The project team will provide an overview of construction activities, Metro's plan to relocate bike lanes from Van Nuys Blvd to Terra Bella St, updates on community outreach and real estate acquisition, and information on small business mitigation programs. Metro will host two meetings in February 2026—one virtual and one in person. Spanish interpretation will be available. ADA accommodation and translations are available by calling 818.701.3844 and requesting services at least 72 hours in advance.

Virtual Meeting via Zoom:
Tuesday, February 10, 2026, 6pm-7:30pm
Meeting Link:
