METRO AGENCY UPDATES

Metro

M The Metro App Is Available

Riding Metro is about to get even easier!

- Regular fare riders can now tap a credit or debit card; Apple Pay or Google Pay to ride Metro.
- Riders still receive two hours of free transfers and fare-capping benefits when using the same card or device.
- TAP cards remain available and should still be used by Reduced Fare and GoPass riders.
- Reduced Fare credit/debit payment is expected in 2027.

Metro Launches New Public Safety Hub and Dashboard

- Metro's new Public Safety Hub brings safety information, data and rider resources into one centralized location.
- The dashboard shares regularly updated safety metrics, including reported crime, security activity, ridership and other system trends.
- The hub supports Metro's broader public safety strategy: more visible safety presence, better system access control and stronger partnerships to address issues affecting riders.

Metro Transit Security Officers

Transit Security Officers are trained Metro employees who understand the unique needs of our system and our riders. These officers enforce the code of conduct and fare payment across the transit system, ensuring compliance and maintaining order.

Metro Transit Security Officers focus on:

- Patrolling the system regularly.
- De-escalating situations and maintain order and lawfulness on the system.
- Enforcing the Metro code of conduct and issuing citations.
- Communicating incidents directly with Metro Operations Centers, law enforcement partners, and emergency service providers.
- Fare checks and enforcement.

Thank You, OHLA USA!

July 2026 – Northbound Truck Route

- OHLA crews responded to a big rig fire within the project area.
- Crews utilized water trucks and resources to help extinguish the fire and secure the area.

August 2026 – Southbound I-5 Valenica BI

- OHLA crews again stepped in to assist with another big rig fire along the corridor.
- Their quick response helped support roadway safety and emergency response efforts.

Thank you to the OHLA USA team for going above and beyond to keep the I-5 corridor safe!

Ongoing Project-Wide Permanent Signage Installation

Wayfinding Signage: Third-Party Coordination

- Changeable Message Signs (CMS), and detour wayfinding signage as per Caltrans standard requirements
- Coordination with Google Maps and Waze for navigation apps to show the closures
- Coordination with emergency responders to understand closures and provide on-site traffic management

Examples of Portable Change Message Signs (PCMS) placed for public awareness

Noise: Monitoring and Mitigation

Noise Mitigation

- Noise control plan, administered by a qualified acoustical engineer
- Noise monitoring, reporting, and mitigation required if noise exceeds Metro/Caltrans criteria
- Sensitive noise receptors will be used to monitor permitted levels

Weldon Canyon Rd Bridge Demolition, November 2023

Dust: Monitoring and Mitigation

Dust Mitigation and Stormwater Management

- Fugitive dust and stormwater management plans, administered by environmental engineers
- Typical mitigations include water trucks for dust, slope erosion control, track out control, reduced vehicle speeds, covering inactive stockpiles, and storm drain protections

Coordinated response to complaints

Examples of typical erosion control and dust mitigation methods used on the project
